

Campaign Statement for GSO Vice- President

Dear Fellow Graduate Students,

I am eager to serve as your next Vice President for the Graduate Student Organization at Stony Brook University. My journey includes managing our campus events with care, leading a large group of students back in school, growing a business from scratch, and helping children learn through an NGO.

In my time coordinating with Operations Assistants, I've learned to ensure events run smoothly and to swiftly tackle any concerns that arise. Back in 10th grade, I took on the responsibility of guiding a large student group, managing various activities and resolving school matters, which strengthened our community. These experiences were key steps in my leadership path. Later, as the Marketing Head for "Street Cause" NGO, I drove efforts that directly contributed to the education of over 1500 children, leading to successful fundraisers and enhancing team collaboration.

I've learned how to listen, solve problems quickly, and work with teams to get things done—skills I'll bring to the role of Vice President.

I promise to use my experiences to make sure we tackle all your needs, from study concerns to making the most of campus life. Vote for me, and let's work together to make our time here successful and enjoyable.

Warm regards,
Krishna Bhuma
