

Dear Graduate Student Community,

I am honored to announce my candidacy for Vice President of the Graduate Student Organization, driven by an unwavering commitment to inclusivity, diversity, and empowerment.

With a background in data science and leadership roles in initiatives like Enactus and Formula Student, I understand the transformative power of collaboration and diversity. My journey has taught me that true innovation thrives in environments where every voice is heard and valued, regardless of background or perspective.

My recent application for Senator for the Data Science Department underscores my dedication to representing our community's diverse interests at all levels of governance. I am passionate about ensuring that every graduate student feels seen, heard, and supported in their academic journey.

Together, let's cultivate a culture of inclusivity and diversity within our organization. Let's celebrate our differences as strengths and embrace the richness of perspectives each of us brings. I am committed to fostering an environment where all graduate students feel empowered to thrive, innovate, and succeed.

I humbly ask for your support and trust as we embark on this journey together. Let's build a more inclusive, diverse, and vibrant graduate student community that reflects the beauty and complexity of the world around us.

With gratitude and determination,

Veda Nair.
